DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-13 and 17, drawn to a method of calculating differences in shipping charges using an actual supplier location and a virtual supplier location, classified in class 705, subclass 400.
 - II. Claims 14-16, drawn to a computer system programmed to receive orders, calculate actual shipping charges of bulk and individual items, classified in class 705, subclass 4.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different modes of operation. Invention I calculates shipping charges using an actual location and a virtual location, then calculates the differences between the two. Invention II, receives orders, ships items, disaggregate items, and calculates shipping charges, does not use calculations from virtual locations and compares them with the shipping charges of the actual location.
3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Art Unit: 3629

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
